

PUBLIC NOTICE

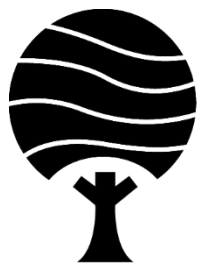

JANUARY 24, 2025

NOTIFICATION OF SEWER INVESTIGATION WORK

Beginning Monday, January 27, 2025, representatives from Duke's Root Control, Inc. ("Duke's"), on behalf of the Kent County Public Works Department, will be in the Town of Bowers Beach & the Town of Frederica, for the purpose of evaluating the condition of the sanitary sewer system. Work will generally occur between the hours of 7:30 a.m. and 4:30 p.m.

This method of testing requires representatives from Duke's Root Control, Inc. to access manholes located within the Right-of-Way and/or utility easements, including those on private property. If Duke's requires the use of your driveway to park equipment, they will contact you prior. Per manhole, the inspection process should last less than 30 minutes. Your cooperation is greatly appreciated. All Duke's representatives will have identification badges and will be wearing company uniforms at all times.

Please feel free to contact the Kent County Public Works Department at [302-744-2430](tel:302-744-2430) during normal business hours, 8:00 a.m. and 5 p.m.
